## Take the Big Step

*“The Son of Man came to seek and to save the lost.”*

Luke 19:10

I once told my kids that people often describe getting married as taking “The Big Step.” Two people leave lives of being single, thinking only about themselves to then consider the other person in making decisions, sharing living space and all their stuff in a more unselfish way of life that is very different! But joining God’s family is the BIGGEST Big Step! In His family, choices and decisions are based on God’s way of doing life. We are not living for ourselves anymore. One thing we’ve always said in our family as we make plans is, “Lord willing, we will do [this or that].” I’ve loved it that as my kids get older I hear them use that same phrase as they make plans for the direction their lives will take. That’s the result of taking the BIGGEST Big Step—into God’s own family!

### Try This:

Tell your kids the story of your own spiritual journey: tell what you thought about God at their age, about how and when you joined God’s family. Tell and retell stories of how God changed the lives of extended family members or friends. Repeat stories to your kids about people you have influenced to join God’s family and how it has changed their lives, too!
