WINTER A
Lesson 2

Perfect Results

The Word became flesh and made his dwelling among us. We have seen his glory.

John 1:14

We have a lot of fun searching online for a variety of science experiments. My kids enjoy testing out the directions. We've learned that following the directions is pretty important! And sometimes, if the directions are faulty, the results aren't exactly what they are supposed to be. I've contrasted this to God's plan. **In life, when God put His plan for salvation into action, sending Jesus to Earth as the solution for our sin, the results were what He had expected: we were saved from our sin!**

Try This:

We challenged our kids to interview people and record them answering this question: What do you think is the reason for Christmas? We helped them put the clips together into a movie and showed it to the family when we gathered at Christmas. Then we read the Christmas story and John 1:1-14 which tells about God's plan to send Jesus into our dark world with the perfect results that we could have a relationship with Him.
