

## Bones (Facilitator's Page)

**Before the lesson:** Make copies of the cards below, cut them apart, and shuffle the deck(s). You will need one card for each learner in your class. If you have a large group, duplicate both sets of words.

**During the lesson:** Say, “The bones in the human body work together. They connect to create our anatomy. Your goal is to find the participants with the bones that connect to yours and piece together either an arm or a leg; there are six bone cards for each. Once you find your group, put your cards together in order. When your arm or leg is complete, give a cheer!”
